

# Easter Bunny Cake Instructions

1. Print out the bunny cake sheet. For best results, use card stock paper.
2. Cut out the bunny ears as one piece and the bunny face as another piece.
3. Assembly for both pieces:

## Bunny Ears

Once you have cut out the ears, use a craft stick or toothpick and glue or tape it to the back of the bunny ears. Stick the ears into the top of the cake.

## Bunny Face

Cut away the dashed lines and fold and crease along the fold line. Glue some wax paper at the back of the face if you would like to prevent the face from getting oily from the frosting. Use the folded sides to push into the front of the cake. You may need to create slits with a knife for the folded ends to slide into the cake more smoothly.

5. Voila, you now have a Easter bunny cake!
